

TRADE ON CURB IS LESS ACTIVE Prices Move Irregularly and Realizing Sends Industrials and Oils Down.

Trading in the outside market yesterday was less active and price movements were irregular. Continued realizing in some of the industrials and oils resulted in further losses, but in some cases there was a good demand on the reactions and small rallies occurred.

Among the oils, the market was higher while Merritt was in good demand in the late trading and rose more than a point. Boone Oil established a new high. Stenger's field stocks were firm, with Rangelburnett selling at a new high. Omar was active and steady.

Increased interest again was shown in stocks of silver producing companies. Seven Metals was firm and McManama, an larger turnover, touched a new high for this move.

Italian Government bonds displayed a firmer tone and Interborough Rapid Transit 7 improved a point.

Interborough Consolidated Corporation To the Holders of Interborough-Metropolitan Company Collateral Trust Four-and-a-half Per Cent. Gold Bonds

The default in the payment of the April 1, 1919, instalment of interest on the above mentioned bonds, the appointment of Receivers for Interborough Consolidated Corporation and the fact, as this Committee is advised, that the net earnings of Interborough Rapid Transit Company are now substantially less than its fixed charges, accentuate the necessity for prompt and concerted action on the part of the bondholders to safeguard their security.

Application has been made for the listing on the New York Stock Exchange of the certificates of deposit issued by the Depository against such deposits, and in that connection the time for deposits has been extended to May 15, 1919, after which date no deposits will be received except upon such conditions as the Committee may impose.
